

# BRIKclad

## MAXUM DRY-STACK

**Maxum Dry-Stack** is a **Canadian made**, large-format **cement bevelled brick** that installs like siding – no mortar required!

Maxum Dry-Stack features a simple, one-step installation method that makes it DIY-friendly and allows for rapid installation\*.

Its versatile design allows for installation by all types of labor across all wall types and in any weather condition.

*\*Use one clip per brick for walls under 30 feet high and two clips per brick for walls 30 feet and taller.*
